Energy Sector

- 1. *March 4, Associated Press* (California) California shuts down oil wells to protect ground water. The California Department of Conservation stopped production at 12 wells used to pump oil-and-gas in Central Valley March 3 in order to protect underground drinking-water from contamination following a review that found over 2,500 instances when the State authorized the injection of oilfield waste into protected aquifers used for drinking water or irrigating crops. Two operators were issued cease-and-desist orders while 10 other oil wells in Kern County stopped production. 3. *March 3, WREX 13 Rockford* – (Illinois) 'Chunk of ice' shuts down Unit 1 at Byron nuclear power plant. Exelon Corporation officials announced that an automatic shutdown of the Unit 1 reactor at the Byron Generating Station in Ogle County, Illinois, March 3 was likely caused by a large chunk of ice that interrupted power to the unit. The shutdown did not affect local service to customers, and crews are making the necessary repairs.

Transportation Systems Sector

- 6. March 4, Santa Cruz Sentinel (California) Santa Cruz: Six protestors who blocked Highway 1 arrested. Southbound Highway 1 in Santa Cruz reopened after being closed for 5 hours due to University of California, Santa Cruz student protestors who chained themselves to bins filled with 700 pounds of concrete and blocked the roadway March 3. Authorities arrested six students before clearing the highway to reopen. Source: http://www.mercurynews.com/central-coast/ci_27633502/santa-cruz-protesters-block-highway-1-slow-highway
- 7. *March 3, WSYX 6 Columbus* (Ohio) **I-70 reopens after fertilizer spill closed lanes for hours.** Westbound lanes of Interstate 70 near Livingston Avenue in Ohio reopened after being closed for nearly 4 hours March 3 while crews cleared a fertilizer spill. Source: http://www.abc6onyourside.com/news/features/top-stories/stories/Update-I-70-Reopens-After-Fertlizer-Spill-Closed-Lanes-For-Hours-98201.shtml
- 8. *March 3*, *St. Cloud Times* (Minnesota) **All lanes of I-94 open after collisions near** Clearwater. The Minnesota Department of Transportation reported that all lanes of

Interstate Highway 94 in St. Cloud reopened after being closed for nearly 4 hours March 3 due to 31 collisions that caused injuries following heavy snow fall. Source: http://www.sctimes.com/story/news/local/2015/03/03/interstate-near-clearwater-closed-traffic/24311173/

9. *March* 2, *CNN* – (National) **Report: Air traffic control system vulnerable to cyberattack.** The U.S. Government Accountability Office (GAO) released a report March 2 claiming that the Federal Aviation Administration (FAA) needed to continue addressing significant security control vulnerabilities regarding its cyber-security measures that continue to threaten the agency's ability to ensure safe and uninterrupted operation of the national space system. The FAA reportedly agreed with GAO's recommendations for improvement and stated that the agency was working towards increasing cyber-security.

Information Technology Sector

20. *March 4, Softpedia* – (International) **Strong SSL/TLS ciphers downgraded to use weak crypto key in FREAK attack.** A security researcher at INRIA and the Microsoft Research Team identified a serious vulnerability in the implementation of secure sockets layer (SSL) and transport layer security (TLS) protocols on Apple and Android devices that can be abused through man-in-the-middle (MitM) attacks that capitalize on abandoned policies to force the use of weak RSA keys, potentially leaving a wide range of government and other Web sites vulnerable. The researchers

have dubbed the attack FREAK (Factoring RSA Export Keys) and Akamai cloud platform announced that it patched the vulnerability.
